

MANHATTAN COLLEGE – The Civil and Environmental Engineering Department is seeking to fill a tenure-track position at the assistant or associate professor rank beginning with the Fall 2014 semester. A doctorate degree in Civil Engineering with a specialization in Geotechnical Engineering is required. Additional requirements are an undergraduate degree in civil engineering and a professional engineering license or the ability to obtain one within a reasonable period of time. The successful candidate will be expected to teach undergraduate and graduate (MS level) engineering mechanics courses and geotechnical courses, such as, soils, foundations, geology, as well as other civil engineering-related courses. In addition the candidate will be expected to initiate and sustain a scholarly research program. Candidates will be evaluated on the above requirements, as well as academic background, professional experience, communication skills, and potential for excellence in teaching, scholarly and professional activity and service to the College. Please mail/EMAIL a statement of interest and professional goals, **a copy of your college transcripts, a detailed curriculum vita, and the names and contact information of three references to:** Dr. Moujalli Hourani, Chair, Civil and Environmental Engineering Department, Manhattan College, Riverdale, NY 10471-4098. For best consideration, the application materials should be received by December 15, 2013. Women and under-represented minorities are strongly encouraged to apply. Manhattan College is an equal opportunity, affirmative action employer
