

# GLOBAL ENGINEERING TREK TO INDIGENOUS NORTH AMERICA 2025

- Gain exposure to minerals mining at the center of energy storage technologies, the environmental and social effects of mining, and research to develop improved mining and recycling technologies that can reduce them.
- Compare perspectives through visits to indigenous communities, mining sites, and other stakeholders in Minnesota and Alaska
- Connect with peers from Northwestern and Montana Technological University
- Need-based financial aid is available

Travel Dates	June 2025
Eligibility	Freshmen, Sophomores
Application Deadline	February 2025

**OPEN TO ALL  
MAJORS**

**HIGHLY  
SUBSIDIZED**
